## Summary

Turning Repetition into Innovation | Data into Decisions | Ideas into
Automation

Hi, I'm Rupam — a curious coder, passionate problem-solver, and
automation architect. With a blend of CPA development and data
science, I help businesses break free from manual drudgery and
make smarter, faster decisions.

What I Build
From bots that never sleep to dashboards that speak volumes — I
design and deploy intelligent systems that simplify processes, unlock
insights, and amplify productivity.

What I Know

Automation & RPA: N8N | Power Automate | Excel Automation

Data & Analytics: Python | Power BI | SQL | ML Models

Integration: APIs | Custom Workflows | Cross-platform Solutions

What I Believe
Automation isn't just about saving time — it's about creating time for
what really matters: strategy, innovation, and growth. I thrive at the
intersection of logic and creativity, using tech to reimagine how work
gets done.

Let's connect if you believe that smart processes make smart
businesses — or if you just want to geek out over Python scripts and
process maps!

# Experience

Magnit
Senior Analyst – Process improvement | Platform Solutions
March 2025 - Present (1 year)
India

•Developed and enhanced workflow automation using platform capabilities such as forms, flows, and scripted logic, improving turnaround times and user experience.
Performed root cause analysis on service issues and recurring incidents, implementing configuration and logic enhancements to prevent reoccurrence.
Worked closely with cross-functional teams to translate business requirements into scalable, maintainable platform solutions.
Tracked KPIs, SLA trends, and operational metrics to evaluate solution effectiveness and support continuous improvement

E42.ai
3 years 3 months

Lead Ai specialist
January 2023 - March 2025 (2 years 3 months)
Pune, Maharashtra, India

Lead AI Use Case Specialist at E42.ai
Driving end-to-end automation for enterprise clients through AI-powered platforms. Delivered impactful solutions across industries by streamlining operations, enhancing data extraction, and enabling intelligent workflows. Skilled in OCR, APIs, Python, and agile delivery methodologies.

AI Agent Specialist
January 2022 - March 2025 (3 years 3 months)
Pune, Maharashtra, India

AI Use Case Specialist at E42.ai
Specialized in designing and delivering AI-driven automation use cases across diverse industries. Responsible for understanding business processes, identifying automation opportunities, and implementing solutions using OCR, APIs, and intelligent workflows. Proficient in Python and agile methodologies, with a strong focus on operational efficiency

HDFC Bank
Assistant Manager – Operations & Process Controls
February 2020 - August 2020 (7 months)
Nagpur Area, India

Managed high-volume operational requests requiring multi-level approvals and strict SLA adherence.

Handled incident-like scenarios involving transaction failures, system issues, and customer escalations, ensuring timely resolution.

Coordinated with multiple stakeholders to resolve operational issues and prevent recurrence, aligning with incident and problem management concepts.

Maintained accurate records, validations, and audit-ready documentation, reinforcing data governance and compliance standards.

Improved turnaround time by standardizing request handling and escalation processes

## Axis Bank
1 year 6 months

### Assistant Manager – Operations & Process Controls
September 2018 - February 2020 (1 year 6 months)
Bhopal Area, India

Managed high-volume operational requests requiring multi-level approvals and strict SLA adherence.

Handled incident-like scenarios involving transaction failures, system issues, and customer escalations, ensuring timely resolution.

Coordinated with multiple stakeholders to resolve operational issues and prevent recurrence, aligning with incident and problem management concepts.

Maintained accurate records, validations, and audit-ready documentation, reinforcing data governance and compliance standards.

Improved turnaround time by standardizing request handling and escalation processes.

### Assistant Manager
October 2018 - January 2020 (1 year 4 months)
Bhopal Area, India
